Symbol-Assisted Story

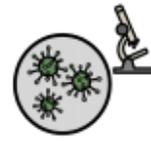

Vaccines and Coronavirus - Level 2

Vaccines and Coronavirus

We do lots of things to help us stay safe from Coronavirus. We

wash our hands, social distance and do tests. Having a vaccine is another

really important way to stay safe.

Vaccines

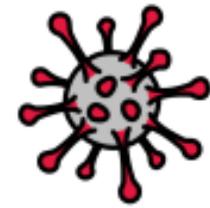

stop

us feeling

sick

from

Coronavirus.

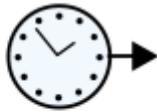

Vaccines are tested by doctors and scientists to make sure they are

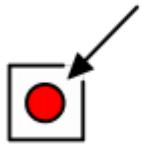

safe.

When I get my vaccine I shall go and see a special health worker.

They will wipe my arm to clean it and they will put the vaccine

in my arm with a needle.

It may hurt for a second. This is ok. It means I will not get sick

from Coronavirus.

I can

do things to

help

me

stay

calm.

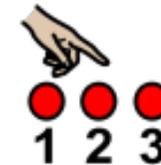

I can

take deep

breaths

and

count

them.

I can

distract

myself.

After my vaccination I will know that I am safe and I won't get

sick from Coronavirus.

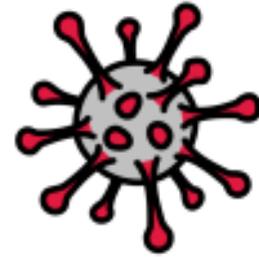

Thank you

for

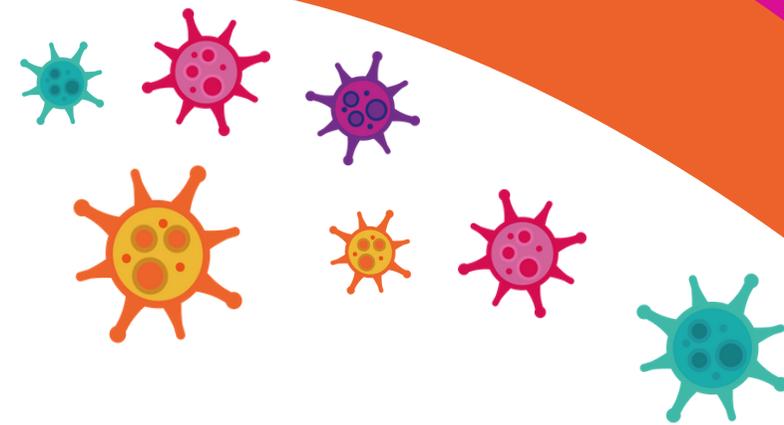

helping

stop

Coronavirus.
