Symbol-Assisted Story

Safe Practices - Facemasks

Face Masks

We

can now

choose to

where

face masks.

This

helps

keep

us

safe

and to

stop

Coronavirus

spreading.

It can

help

to wear them when

we

are at

school,

at the

shops

or

near

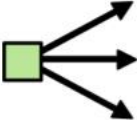

people

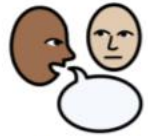

we

don't live

with.

    
Coronavirus spreads through tiny drops of saliva that come out

    
of our mouths when we sneeze, cough or talk. These drops

  
are so small we cannot see them, but they can carry the virus.

Face masks

stop

these

tiny

drops

and can

help

stop

the

virus

from

spreading.

Sometimes masks can feel uncomfortable. This is okay.

Remember, when we wear a face mask we are helping to stop

Coronavirus. We are helping keep people safe.

Thank you

for

choosing

to wear a

face mask.

Thank you

for

helping

stop

Coronavirus.
