Symbol-Assisted Story

What is Coronavirus? What can I do to help?

What is Coronavirus?

What can I do to help?

Coronavirus is a virus that can make people feel unwell.

Coronavirus moves from person to person.

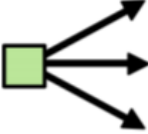

If Coronavirus moves inside our body, it can make us unwell.

I can help by washing my hands with soap and water or

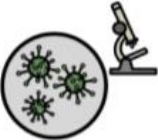

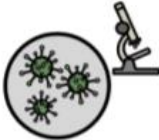

hand sanitiser. This removes Coronavirus and stops its spreading.

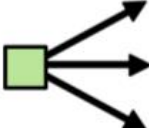

I can also  social distance to  help  stop  Coronavirus  spreading.  Adults

and  teachers can  help  me  know when I should do this.

I can  choose to wear a  face mask when  indoors or  near  people.

 Adults and  teachers can  help  me  know when I should do this.

I can do a  test.  Tests  help  us  see  where  Coronavirus is and

 stops  it spreading.

Washing hands,

keeping distance,

wearing face masks

and doing

tests

will

help

stop

Coronavirus.

They will

help

keep

me,

my

friends

and my

family

safe.

Thank you

for

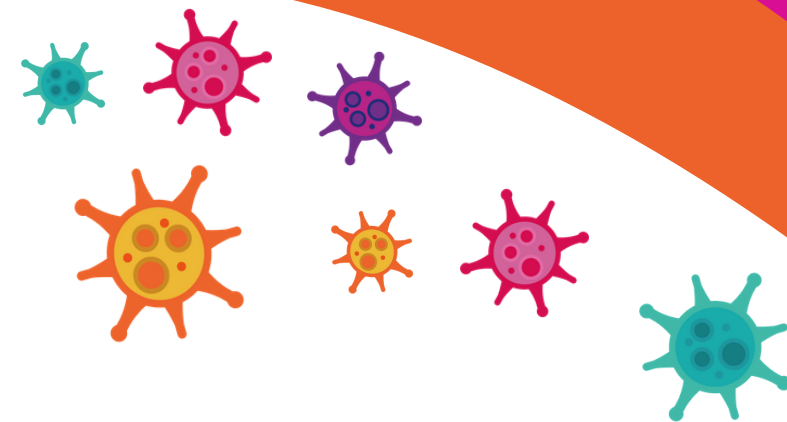

helping

stop

Coronavirus.
