# Testing for COVID-19

# SEND resource pack

Symbol-Assisted Story
Lockdown Easing

Lockdown   Ending

The lockdown has now ended.

Shops are open and we can meet our friends and family.

There are less people with Coronavirus, but Coronavirus is still

around.

It is really important to remember to keep washing our hands and

social distancing. This will stop Coronavirus spreading again.

We can choose to wear a face mask when we are indoors near people

we don't live with. This will help keep people safe from Coronavirus

and stop it spreading.

Taking tests is also really important to help find any Coronavirus that is still around and stop it spreading.

If we keep washing our hands, social distancing and taking tests, we can

stop Coronavirus spreading again.

We can go out and meet our friends and family too.
Thank you   for   helping   stop   Coronavirus.
