CAUSE OF DEATH

The condition thought to be the 'Underlying Cause of Death' should appear in the lowest completed line of Part I.

I (a) Disease or condition directly leading to death† Myocardial infarction (Heart attack)
 (b) Other disease or condition, if any, leading to: **I(a)** High blood pressure
 (c) Other disease or condition, if any, leading to: **I(b)** High cholesterol
 II Other significant conditions **CONTRIBUTING TO THE DEATH** but not related to the disease or condition causing it Obesity

These particulars not to be entered in death register

Approximate interval between onset and death
1 hour
5 years
7 years

The death might have been due to or contributed to by the employment followed at some time by the deceased

Please tick where applicable

This does not mean the mode of dying, such as heart failure, asphyxia, asthenia, etc: it means the disease, injury, or complication which caused death.

I hereby certify that I was in medical attendance during the above named deceased's last illness, and that the particulars and cause of death above written are true to the best of my knowledge and belief.

Signature MR Davey Qualifications as registered BM GP MRCP
 by General Medical Council
 Residence Sunnyfields GP Surgery Date 25.10.1983

For deaths in hospital: Please give the name of the consultant responsible for the above- named as a patient Dr Robert Grace

Family data summary sheet

Name	Age in years	BMI	Smoking	Blood pressure	Diabetes	Alcohol intake	Cause of death	Any other information

Chris	12					Occasional drinker		Gets a lift to school with a friend. Stopped playing Dodgeball because training is on a Friday night, most his mates have started smoking.
Kyle	10	22	No	95/65		None		Cycles to school each day. Star player for the local Dodgeball team.

Information card

Name: Jessie

Age: 18yrs

Relationship to Chris: Sister

BMI: 30

Smoker: No

Blood pressure: 119/79

Diabetes: No

Alcohol intake: 16 units per week

About me: I still live at home and I'm training to be a dental nurse at college, so I spend most evenings in the week studying. I make up for working hard during the week by going out clubbing most Friday and Saturday nights with my mates.

Information card

Name: Fred

Age: 50yrs

Relationship to Chris: Grandfather

BMI: Overweight

Smoker: Yes

Blood pressure: 155/91

Diabetes: No

Alcohol intake: 8 units per week

About me: Fred worked as an electrician. He smoked all his life, starting when he was only 17 years old. He was a devoted Saints supporter and never missed a home game. On match days he would enjoy a few pints and a burger with the lads after the match.

Information card

Name: Helen

Age: 46yrs

Relationship to Chris: Mother

BMI: 32

Smoker: No

Blood pressure: 135/80

Diabetes: Gestational

Alcohol intake: 10 units per week

About me: I'm a busy housewife and working mum. I really like my job working part time as a receptionist at our local doctor's surgery. I was getting a bit worried about my weight, especially as I work in a doctor's surgery and I'm aware of the problems it could lead to. As the surgery is local I can walk to work and I've recently started going to an aerobics class once a week with my friend. I like to relax in the evening on the sofa, watching TV with a glass of wine, or maybe two!

Information card

Name: Ian

Age: 51yrs

Relationship to Chris: Father

BMI: 25

Smoker: No

Blood pressure: 132/82

Diabetes: No

Alcohol intake: 24 units per week

About me: I'm a self-employed builder so can't afford to take any days off. I work long hours in the week but at weekends I like to make the most of my time off. I love football; I've got a season ticket for the Saints, but I also play 6 aside in our local football league. After a match I usually join the lads down the social club for a few pints.

Information card

Name: Kyle

Age: 10yrs

Relationship to Chris: Brother

BMI: 22

Smoker: No

Blood pressure: 95/65

Diabetes: No

Alcohol intake: None

About me: I'm the youngest in our family and the fittest! I cycle to school each day, my favourite lesson is PE and I love school dinners. I'm really fast and very good at Dodgeball. I'm in the local junior team and we're top of the league at the moment, I've got loads of medals for winning matches and star player.

Information card

Name: Chris

Age: 12yrs

BMI:

Smoker: No

Blood pressure:

Diabetes: No

Alcohol intake: Occasional drinker

About me: I'm just choosing my GCSE options for next year, not sure what I want to do! I get a lift to school in the morning with my mate, his Mum drops us off. We go off site for lunch and usually get a pie or a burger from the van. I used to play Dodgeball, I was pretty good at it but the training on a Friday night was getting a bit of a drag. All my mates meet up on Friday night and hangout, some of them have started smoking, but my parents don't know.
